License plate holder Tail tidy

— License plate holder tail tidy

DB Race adjustable carbon license plate holder tail tidy with integrated indicators and license plate light for **DUCATI PANIGALE V4\V2** and **STREETFIGHTER**.

The license plate holder is composed of the adjustable carbon attachment including License Plate Light, LED direction indicators and red reflector.

The license plate holder has been designed to be plug & play, you just have to connect the Ducati connectors already mounted on board to the motorcycle's electrical system and screw two screws..... and you're ready to go

Carbon fiber attachment with integrated LED license plate light, available in matt or glossy fiber carbon . Perfect interchangeability with the original holder.

- ✓ Adjustable inclination in 5 positions
- ✓ Latest generation integrated sequential LED direction indicators.
- ✓ License plate support made of aluminum machined from solid by CNC machining
- ✓ Removable red reflector
- ✓ Ø6.5 or Ø8.5 holes depending on the country of destination. Holes already present on the license plate holder.
